

# Venezelos And Nations' League

BY FRANK H. SIMMONS  
(Copyright by McClure Syndicate)  
The announcement in Paris de-  
clares that, as a consequence of the  
failure of the Peace Conference to de-  
cide Balkan matters, particularly in  
view of the American position, with  
reference to the disposition of Thrace,  
Venezelos has publicly stated his loss  
of confidence in the League of Nations.

is of more than passing impor-  
tance at this time. I remember sitting  
beside the Greek Premier at a dinner  
early in the Peace Conference when,  
both at table and in a speech which he  
made afterwards, he forcefully and  
eloquently defended the League of Na-  
tions from the point of view of the  
representative of a small nation. Ven-  
ezelos himself was not only a most con-  
spicuous representative of a small na-

tion, but he was one of the great fig-  
ures at Paris, a man whose force and  
whose intelligence marked him from  
the outset.  
Had Venezelos sided with the Ger-  
mans in the war, Greece would have  
been totally lost to the Allies, would  
have become an invaluable base for  
German submarines and the victorious  
Macedonian campaign in September of  
last year could not have occurred. In

the face of the open sympathy of  
King Constantine, the court and the  
Greek army with the Kaiser, Venezelos  
saved Greece to the Allies and rendered  
service of almost incalculable value  
at critical hours.  
In Paris, as in the various peace  
conferences after the several Balkan  
wars, Venezelos displayed a moderation  
and a reasonableness in striking contrast  
to the attitude of representatives of

other small but ambitious nations  
from the very outset he was a cham-  
pion, and a powerful champion, of the  
League of Nations, not only as an  
ideal, but also as a practical machine  
in the presence of the great, not only as  
an instrument for peace between large  
nations, but as a guarantee of the in-  
dependence and rights of little states  
like his own.

In the Peace Conference, Venezelos  
asked for his country only lands in  
which had an Hellenic tradition, but  
in advocating these demands, he en-  
countered the hostility of the Italians  
and he found himself not alone op-  
posed by the Italians in the Aegean  
and in Northern Epirus, but to his  
surprise he found the United States  
advocating the bestowal of territories

upon the Bulgarians as well as the  
Albanians in which the population,  
and in which, during a brief occupa-  
tion, the Bulgarians and the Albanians  
had persecuted the Greek population  
as the Bulgarians had also persecuted  
the Serbs during the time they held Serbia.  
The crux of the situation was the  
disposition of Thrace, and particularly  
that portion of Thrace which lies be-  
tween the Maritza river and the pre-

ent Greek frontier. The occupation  
of this country had permitted the Bul-  
garians to assault Greece in the second  
Balkan war and have a valuable base for Bulgarian  
operations during the world war. In Bul-  
garian hands it was a constant menace  
to Salonika.  
The arguments that this territory  
should go to Bulgaria rest solely on the

### "Food Being Hoarded To Bring Higher Prices"

—REPORTS FEDERAL TRADE COMMISSION.

WASHINGTON, D. C., August 7.—Although prices of practically all important foods have shown a substantial increase during the last year, stocks of food held in storage on June 1, this year, were approximately 25 percent greater than those held on June 1, 1918, according to a memorandum show-

ing the relation between storage figures and in the prices issued to-day by the federal trade commis-sion. Government stocks were excluded from the comparison.  
"The fact that stocks of many important foods were much larger on June 1, this year, than on the same date last year," said the com-

mission's statement, "while prices were as high or higher, apparently means that they are being with-held speculatively for a world-de-mand which is not now here, but which is expected when hunger-im-pelled strikes secure higher wages with which higher food prices can be paid."

To show that the "law of sup-ply and demand is not working," the commission listed eight staple foods which on June 1 showed an increase in stocks withheld from the market ranging from three to 298 percent over stocks on June 1, 1918, and in each instance, there was shown to have been a

substantial advance in the whole-sale price during that period.  
Stocks of frozen fowls showed a maximum increase of 298 per-cent and the price despite this fact increased three cents a pound. Wheat stocks showed an increase of 173 percent, with an increase in price of 31 cents; flour stocks, an

increase of 21 percent, with an in-crease in price per barrel of nearly three dollars; egg stocks, an in-crease of 9.5 percent, with an in-crease in price of 11 cents, and butter stocks an increase of 129 percent, with the price soaring 12 cents above last year's figure. Salt beef, canned salmon and canned

corn completed the items in this table, the latter showing an in-crease of 91 percent in stocks, with an in-crease in price.  
All dry storage stocks, accord-ing to the commission's figures, showed an average increase of 124 percent. Of these not listed in the above table, stocks of rye in-

creased 346 percent; barley, 287 percent; buckwheat flour, 327 percent, and canned tomatoes 292 percent.  
Increases in other cold storage stocks were shown as follows: Cured beef, 103 percent; frozen lamb and mutton, 91 percent; frozen pork, 50 percent, and pickled pork, 10 per cent.

## WALL STREET LOOTING RAILROADS, SAY TRAINMEN

### Plan Criminal Prosecution Of Packers

WASHINGTON, D. C., August 7.—The government's case against the five packers will be placed before the federal grand jury which meets at Chicago three weeks hence. This means that criminal prosecution will be instituted.  
Charles F. Ryan, federal district attorney at Chicago, said today that besides asking indictments under the criminal sections of the Sherman anti-trust law, civil suits would be brought under that statute and that in addition the packers would be prosecuted under the food control act on charges of hoarding.

### Train Service Is Crippled By Strikes

NEW HAVEN, CONN., August 7.—Serious curtailment of passenger and freight service over the New York, New Haven and Hartford Railroad was forecast by the management in a statement at noon today which admitted that practically all the mechan-ics engaged in maintenance of en-gines and cars had struck.

SUSPEND FREIGHT TRAFFIC  
CHICAGO, August 7.—Railway freight traffic on the Chicago North-western Railroad was suspended today on the Iowa and Minnesota divisions because of the shopmen's strike, ac-cording to a statement made at the

THE YOUNG LADY ACROSS THE WAY  
The young lady across the way says, "There is more attractive than a goal. There is more and everybody should cultivate just the right com-temper."

### WORLD-WIDE WAR ON HIGH LIVING COST

WASHINGTON, D. C., August 7.—Members of the sub-committee ap-pointed by Attorney General Palmer to make recommendations for measures to reduce the high cost of living, were summoned to the White House today by President Wilson.

(BY THE ASSOCIATED PRESS)  
Demands for increased wages, precipitating strikes, and investigations of the unprecedented cost of living, are causing world-wide agitation. In practically every country, the demands of the workmen are becoming so in-sistent, that in this and European countries, in particular, the situation is causing grave concern.

Strikes and threatened strikes, involving a great number of trades and professions, are under way in industries of all description.

In New York City, according to a police announcement, 110 separate strikes are in force at the present time. There the most serious one is the strike of meatmen and conductors of surface, elevated and subway lines of the Brooklyn Rapid Transit Company.

Strikes of railroad shopmen have been declared in a great number of railroad centers in this country. The strikes have forced railroad officials

of a number of roads to declare an embargo on freight except foods and per-ishable goods.

Since Governor Cox's announcement recently that Ohio would wage war on food profiteers, a great number of states have started similar cam-paigns.

In England, the police, bakers, tramway workers and coal miners are on strike, causing much inconvenience and suffering. There the situation apparently has become a political issue and every day is the subject of bitter debate in both houses of parliament.

In France municipal markets have been established under supervision of government authorities. The cost of living there has caused a great number of strikes recently.

A dispatch from Rome announces the strike of 150,000 workmen in the iron industry.

In South America the labor unrest has been seething for months.

In China, workmen on one of the important railroads are on strike.

### HUNGARIAN GOVERNMENT OVERTHROWN; ARCHDUKE JOSEPH IS NEW LEADER

PARIS, Aug. 7.—The peace confer-ence was advised today that the Hun-garian cabinet headed by Jules Paldi, has been overthrown and that Arch-duke Joseph had established a minist-ry in Budapest.

Advisers to the conference stated that Romanians' forces had crossed the Danube into the Budapest section of Budapest, and were seizing supplies, preparing to ship them to Romania.

The social Democrats of Hungary still hope that the allied and associat-ed governments will not tolerate either Romanian control of the country or that of a government by the reaction-ary grand dukes, additional dispatches reaching the conference from Budapest state.

Accounts of the Romanian proceed-ings report that they notified the Hungarians yesterday that because the terms of the armistice laid down in the Romanian ultimatum had not been accepted the Romanians would cross the Danube immediately, later carry-ing out their threat.

Other acts charged against the Hun-garians in the advice to the confer-ence are assault upon hostess persons and forced entrances into houses everywhere in Budapest under the pretext of searching for arms.

The Romanian army is reported lying on the country, seizing the food it wants, while livestock, farming im-plements, rolling stock and food are

being sent to Rumania, although Bud-apest is on the verge of starvation.

The Romanians, the advisers add, have instituted a blockade, one fea-ture of which has been the destruction of portions of the railways between Budapest and Vienna.

The messages to the conference re-garding the cabinet stated that at 6:30 p. m. yesterday, the members of the social Democratic government while they were in session at the national palace, were arrested by Hungarian police. The coup d'etat was carried out without disorder.

BUDAPEST, Wednesday, Aug. 6.—The entire mission, in this city, dele-gated governmental authority to Arch-duke Joseph tonight when the Paldi government resigned.

At 7 o'clock this evening General Schmitzer-Wolkstein, the chief of police, Dr. Fritz, former secretary of the police department, and M. Seltzer, former departmental chief of the war ministry, went to the ministry build-ing where the cabinet was in session. The delegation called on the ministers to resign and after a short conference, the cabinet decided to comply with the demand.

Authority was delegated by the en-tire mission to Archduke Joseph, who appointed Stephen Frlorich, former chief of a department in the war ministry, to be premier.

### WILL BEGIN VOTING ON EARLY STRIKE

WASHINGTON, D. C., August 7.—The 150,000 members of the Brother-hood of Railway Clerks, Freight Handlers, Station, Express and Steamship Employees will begin vot-ing tomorrow as to whether they will strike immediately for increased wages or await a solution of the wage question along the lines of the report made to congress by Director General Hines.

In announcing the issuing of the strike ballot, J. J. Forrester, president of the brotherhood, said today his conference yesterday with Mr. Hines had not resulted in any change in the sit-uation. Mr. Hines, he said, had noting further to offer than the proposal for a congressional commission to con-sider the whole wage problem.

"The situation with our men," said

Forrester, "is that we must have immediate relief, or our members will commence seeking employment in oc-cupations where they can make a liv-ing for themselves and their families. They have been so loyal in numberless cases now that they have even sold their liberty bonds to live on during the last few months. Our hope is that congress can take some action at once to relieve them."

Increases sought by the men, Mr. Forrester said, approximate 20 cents an hour over present scales, with time and a half for overtime.

"The strike ballot of the clerks and freight men will be the second sent out this week. The slogan now are voting on the question of an immedi-ate strike for increased wages. Many shopmen over the country already have quit work, but their number was estimated by officials of the railroad administration today as not in excess of 40,000.

Officials here said the strike had but virtually no effect on service. Some roads they asserted, reported that none of their men had quit. Em-bargoes on freight at several points were said to be due to local conditions.

WOULD COST \$100 MILLION A YEAR  
WASHINGTON, Aug. 7.—An army of 510,000 regulars and a system of compulsory military training as proposed in the war department's bill establishing a permanent peace time military policy would cost the nation \$200,000,000 a year. This estimate was given to the senate military committee today by General March, chief of staff.

WILL CONSIDER PROBE  
WASHINGTON, Aug. 7.—De-mands of several senators for a general investigation of the Mex-ican situation will be considered tomorrow by the senate foreign relations committee. A special meeting of the committee for that time was called today by Chair-man Lodge.

DEVELOPMENTS IN PRICE WAR  
WASHINGTON, Aug. 7.—Developments today in the govern-ment's efforts to reduce high living costs included:

Announcement that the action against five big meat packing firms would be brought under the criminal and civil sections of the Sherman anti-trust law and under the action of the food control act making unlawful the hoarding of food.

Reports from district attorneys over the country that they were proceeding with investigations of profiteering and hoarding and would make arrests wherever facts warranted.

A conference at the White House between President Wilson and the committee appointed by cabinet officials to recommend means of reducing living costs.

Introduction of a joint resolution in congress proposing a reduc-tion of one billion dollars in federal taxes next year by reducing government expenditures.

Introduction of another resolution in the senate asking the judi-cial committee to determine what her it would be advisable to pro-hibit temporarily the exporting of food, clothing and other necessities.

Granting of authority to the post office department to increase the parcel post weight limit from 12 to 125 pounds so as the facili-tate the distribution of surplus army foodstuffs to the people.

A report by the federal trade commission that stocks of food in storage this year were 20 percent greater than a year ago despite the fact that prices of practically all foods have shown an increase.

### RAILWAY LABOR BODIES WILL PRESENT EVIDENCE AND ASK INVESTIGATION

WASHINGTON, D. C., August 7.—Leading directly "from Wall street and from the banking houses controlled di-rectly by the Morgan and Rockefeller groups," information which has come into the possession of the rail-road brotherhoods "shows that there has proceeded a systematic plunder-ing of virtually all of the public trans-portation highways in the United States," the house interstate commerce committee was told today by Glenn E. Plumb, of Chicago.

Mr. Plumb, who appeared in support of the so-called Plumb plan for the reorganization of the railroads, said the information tended to show that the "wrecking and looting" of the New Haven, Chicago and Alton, Rock Island and Frisco lines were "not sporadic examples of the highway robbery to which the American nation has been subjected as to its public transportation highways."

Definite information on which his charges were based, Mr. Plumb said, would be turned over to the committee "upon which it may ask for a full con-gressional investigation."

"We believe such an investigation," he continued, "will reveal that not only railroad system dominating any part of the 254,000 miles of railroad in the United States but has suffered and is suffering, in degree, if not to the same extent, from carefully delib-erated manipulations of the sort that have wrecked and ruined the railroads I have mentioned. It will reveal that these interests are again gathering their forces of private and secret con-trol and seek, after having gained from congress a sanction to rehabili-tate their railroad properties at public expense, to begin again and follow through its corrupt and wicked cycle the systematic plundering and loot-ing of the public and the public inter-est in the nation's highways."

"In view of the gravity of this situ-ation, and in order that we may have the benefit of their counsel on behalf

of the public in presenting our state-ment to congress and to the American people, the 14 affiliated railway labor organizations are summoning to Wash-ington a national conference on rail-way control.

"In behalf of the public, we are invit-ing to participate in this conference as members of the joint national com-mittee on railroad control, Frank F. Walsh, former joint chairman of the national war labor board; Joseph W. Folk, of Missouri; Raymond Robins; John Lind, of Minnesota; Edward F. Dunne, of Chicago; Dr. Edward W. Reines; Felix Adler; Governor Allen, of Kansas; Julia C. Latthrop, Judge of the "wrecking and looting" of the New Haven, Chicago and Alton, Rock Island and Frisco lines were "not sporadic examples of the highway robbery to which the American nation has been subjected as to its public transportation highways."

Definite information on which his charges were based, Mr. Plumb said, would be turned over to the committee "upon which it may ask for a full con-gressional investigation."

# Police And Firemen May Quit Jobs Unless Given Increase

## Demands Are Presented To Council By Johnson; Want 25 Percent Boost

That there is a possibility of Portsmouth firemen and policemen quitting their jobs unless they are granted an increase of 25 per cent in salary is the news that has been taken to the City Council last night when Director of Safety Harry Johnson reported that the men had demanded that he present their verbal petition to Council asking for the 25 per cent increase.

Solicitor Asa Skelton was also instructed to see if all junk houses could not be ordered outside the city limits.

Alvin N. Jordan, President of the Board of Trade told Council what he had been taken to annex New Boston and also the plan to annex the big industrial territory only when it was evident that the Council would not allow a vote on the question. Besides this business Council passed a number of ordinances among them being ten for the improving of streets by repaving holes in paved streets and repaving and filling dirt streets. The session proved one of the longest and busiest in many months.

A petition was presented by residents in the vicinity of Tenth and Offshore streets asking Council to prevent Louis Arach from building a junk and bike shop on Tenth street near Offshore, their complaint being that it would be a nuisance, a menace to health, comfort and sanitation in the community. The petition was ordered accepted and filed and then Member Ed Westphal made the motion to have the solicitor to look up the laws and if possible bring in legislation prohibiting junk shops in the city.

G. F. Shirley of Waller street near Klance's Lane then presented a petition asking for some relief from the dust that is causing great inconvenience.

annum, bond \$2,000; one assistant superintendent, \$900 per annum; ten apprentice nurses, those having served in Hospital a year or more \$120 per annum, those who served less than one year \$95 per annum; one graduate nurse who shall receive the sum of \$250 per day for each day served, and only to be employed when in judgment of superintendent, such services are necessary; one janitor \$900; one cook \$120; one landress, \$195; one housekeeper \$120; two maids \$240. All are to be paid semi-monthly.

**New Sewers To Be Constructed**

The engineer and service department were ordered to bring in estimates for the extension of the Sewerage Main from the Kricker building on that street and for the construction of a sanitary sewer in Paradise alley. Ordinances were passed authorizing the construction of a sanitary sewer in the vicinity of Halsey avenue and Klance's Lane to be known as the Garvin sewer. The cost to be \$197.10; for the construction of a sewer at Harrison avenue and Lawrence's Run and a fill at the same place for the construction of a sanitary sewer on Twenty-eighth street and Selig's Trail; accepting the plan of sewer on Mabert Road was going to Norway addition and also addition of the former being Herr and DuBois' addition on Jackson street while Alan in addition is near Sunnyside and was planned by Alan N. Jordan, and will be accepted the amended plan of Sunnyside addition. The plan for the construction of a sewer on the east end of the town for street purposes, Charles Herr agreed Council to take steps soon to pave streets and put water and gas in Norway addition. Member Crutcher asked if he didn't want the alleys paved too.

Ordinances were then passed providing for the improvement of the following streets, Tenth street from Young to Chillicothe, \$385; Plum street, Walnut to Galia, \$250; Spring Lane, \$100; Selig's Trail, Klance's Lane in Norway, \$100; Fourth street from Mabert to Madison, \$200; Walnut street, New to Market, \$400; Thompson street, Second to river, \$30; Offshore street, Galia to Ninth, \$35; Front street, Selig's Trail to Offshore, \$45. Member Westphal did not think so much work could be accomplished at once but Director of Safety Harry Johnson assured him the work would be properly taken care of.

An estimate of \$6,000 was presented for repairs and general cleaning of the public library. Member Vanderwerf said it was too high and recommended it be returned to the library trustees with instructions to keep the estimate below \$1,000. Member Johnson urged that every thing be done at this time at the library and on Member Vanderwerf's motion with \$1,000 clause voted that the library trustees be authorized to make such repairs as they thought proper, but not to exceed \$1,000. Westphal thought that \$2,000 should be allowed to cover the cost of the improvements.

The solicitor was instructed to bring in an ordinance fixing a building code for the city of Portsmouth. He was also ordered to bring in an ordinance making it necessary for property owners to take out sanitary sewer taps for each house on a lot instead of allowing them to connect with a sewer on a lot been connected before such an ordinance was drawn up. An explanation of the ordinance was given and the ordinance was passed as follows:

"Establishing position of hospital employees and fixing their salaries and bonds. One superintendent, \$1000 per

**NOTICE**

618 Third Street

they would be a bigger asset to the city. The matter was referred to the solicitor. Mr. Jordan then explained the plan whereby the new territory at New Boston was to be annexed by Council and that he was just explaining the manner so Council could act more quickly when the petition is presented to Council asking the territory to be annexed. In his explanation Mr. Jordan said the business men here before New Boston Council and that the business men present took favorable action that night but that it was feared Mayor Fitch, Councilman W. T. Harr and Sam Davis were putting up a stiff fight against the annexation and that steps had already been taken to bring the territory in by petition.

J. W. Schuler of Mabert Road asked for improvement of the road so it would be in good shape this winter. Engineer Harper explained that the sewer on Mabert Road was going to Norway addition and that the road was to be built soon and that the road was one of the many to be resurfaced with asphalt in the next few months.

## VENEZELOS AND THE LEAGUE OF NATIONS

(Continued from Page One)

fact that without it Bulgaria will have no outlet upon the Aegean, but the country is destitute of harbors and unless the Bulgars are able to be presented with the Greek city of Kavala it is difficult to see how much important attaches to this strip of sea front.

Great Britain and France have agreed in recognizing Venezeola's demand based upon the fact that the population of the territory involved is Greek, not Bulgarian, and upon the further fact that in Bulgarian hands it is a constant threat to Greek security.

Twice in two years Bulgaria attacked her neighbors in undisguised efforts to seize their territory. She is the disturbing element in the Balkans and her ambition was and remains to acquire an actual hegemony south of the Danube.

American championship of the Bulgars has been as explicit a blow to the League of Nations as the American championship of the Jingo States was to the British. Moreover, the Italians, themselves rivals of the Greeks and seeking to deprive Greece of lands unimportant to her under Mr. Wilson's principles, have very promptly and cleverly come to the support of the Bulgarian claims precisely as they are championing Romanian demands at the expense of the Serbians.

Venezeola asks, not without reason, why America, which did not declare war upon Bulgaria, which has no interest at stake, now insists upon the bestowal upon Bulgaria, the hereditary enemy of the Greeks, of lands alike hostile and essential to Greek security. The idea that the League of Nations should advocate the destruction of Greek safety and the annulling of Greek rights has evidently convinced Venezeola from the views which he expresses in the League of Nations. He holds that if he failed to get Kavala and the rest of the territory he would be handing over the whole Balkan Peninsula to the Bulgars there is no way of satisfying their appetite and their ambition. Venezeola, in 1912, offered them Kavala and all the hinterland east of Struma. They took it, and then attacked Greece treacherously and then handed this very Thracian region over under discussion even after their wicked assault upon Greece and Serbia in 1913. Yet two years later they attacked Serbia and invaded Greece. The consequence has been that those strong British forces which from the day of Gladstone have sympathized with Bulgaria, have practically abandoned hope. Our appearance now in the role of a champion of the League of Nations, but of the European, is a most valuable support of a man who in many eyes bulks as the greatest of contemporary European statesmen.

"SIMONDS"

The government of the United States has noted with the greatest interest the frank statement made by Viscount Uchida, with regard to Japan's future policy respecting Shantung.

## STATEMENT ON SHANTUNG BY WILSON

WASHINGTON, D. C., August 7.—President Wilson issued a formal statement last night saying that the "frank statement" made by Viscount Uchida as to Japan's policy regarding Shantung, would be taken into consideration in the settlement of the Shantung question.

References in the British statement to the "frank statement" made by Japan in 1915, which might be misleading, if not commented upon in the light of what occurred in Paris when the "frank statement" was made, were under discussion. Therefore take the liberty of supplementing Viscount Uchida's statement with the following:

"In the conference of the thirtieth of April, last year, where this matter was brought to a conclusion, among the heads of the principal allied and associated powers, the Japanese declaration, Baron Makino and Viscount Uchida, in reply to a question put by myself, declared that:

### PROMISE OF RETURN

When the question of disposal of Shantung was definitely decided on at Versailles, President Wilson said the Japanese declaration in reply to a question put by myself, declared that:

"The policy of Japan is to hand back the Shantung peninsula in full sovereignty to China, retaining only the economic privileges granted to her by the treaty of 1915, and the right to establish a settlement under the usual conditions of a foreign power in a foreign port."

"The contents of the railway will use special police only to insure security for traffic. They will be used for no other purpose."

"The police forces will be composed of Chinese and such Japanese instructors as the directors of the railway

## Passes Bogus Check On Lucasville Firm

A man giving the name of Charles Being was arrested at Huntington Tuesday morning on the charge of passing bogus checks on Columbus and Lucasville merchants. The Huntington police say that Being bought a new touring car at Lucasville. Here, under the name of Charles Shannon, he made out a check on the Third National bank, Cincinnati, for \$85.00 to the bank. Being, in payment for a car and a new car, was not accepted the check at first, and an attempt to get full communication with the Cincinnati bank. Being, however, protested that his check was good and he had numerous friends in the city who would stand good for him. The check was cashed.

The Columbus police telegraphed the local authorities to be on the look out for the alleged forger. The car had passed through the city last week. The telegram was received, and Being was arrested. He is a prisoner in the Huntington jail. He is a prisoner in the Huntington jail. He is a prisoner in the Huntington jail.

# Responsibilities Of Council Outlined In Examiner's Report

The following is the fourth installment of the state examiner's report on Portsmouth's city council. Installments of the report will be published in The Times from day to day.

## EXTRA COMPENSATION FOR PATROLMEN AND FIREMEN

So far as ascertainable from the available records neither the council nor the director of safety have established the number of hours that shall constitute a day's work for a patrolman. Without such a regulation, in accordance with an opinion of the Attorney General under date of November 24, 1914, a patrolman is subject to service at all times and cannot be compensated for extra time. However, if the council or the director of safety establish a day's work for patrolmen, then, if at the expiration of such day they are called upon by the proper official to perform further police duty, they are entitled to extra compensation for such time, such compensation to be computed for the time actually served at the rate fixed for the regular compensation. In said opinion the Attorney General holds the council is really the governing body which should fix the number of hours constituting a day's work.

Under the provisions of Section 4393, General Code, no fireman can be required to be on continuous service more than six days in every seven, hence, if a fireman voluntarily serves on the off day either for the fire department or any other department of the city he believes he may be legally compensated for such service.

However, we have no hesitancy in stating that such a practice would not be conducive to the best interests of the city as the prime object of the law is to afford a member of the city fire department needed rest in order that he may be better enabled to render more efficient service when required to be on duty.

## SALARY AND COMPENSATION MUST BE DEFINITELY FIXED

In accordance with the opinions of the Attorney General and the holding of the Bureau of Inspection and Supervision of Public Offices, the salary and compensation of officers and employees must be definitely fixed by ordinance of council. The council has no authority to fix a minimum and maximum amount and obviously permit the authority in charge to fix the actual compensation at any point between the extremes. When the compensation of employees is fixed at a definite amount the officer in charge has no more right to pay a less amount than he has to exceed the amount so fixed.

## BOND OF SERVICE DIRECTOR AS CUSTODIAN OF CEMETERY FUNDS AND INVESTMENTS

As indicated by the auditor's records, at the date of this audit there was \$15,120.05 in the treasury of the city to the credit of the cemetery fund. While

this amount was in the depository drawing interest at the rate of 2 1/2 per cent per annum, yet no portion of such interest accrued to the benefit of said fund, the interest on the deposit of the city's funds being credited in its entirety to the general fund of the municipality.

Under provisions of Section 4167, General Code, the director of service "shall invest, manage, and control property received by donations and surplus funds in his hands from any source whatever." We have advised that the surplus funds to the extent of \$15,000.00 be invested in interest bearing securities, and the director has assured us that the recommendation will be observed. We have been informed by the director that at the beginning of the year 1919, he will be able to purchase City of Portsmouth "fives" thus adding to the cemetery fund annually \$750.00 in interest.

In accordance with the provisions of the section referred to it is the duty of the director of service to hold and account for all investments of the surplus cemetery funds made by him. Therefore, when the aforesaid investment is made the director of service will have in his possession securities of the cemetery fund to the extent of \$15,000.00. The director, in his capacity as head of the service department, files bond in the amount of \$10,000.00 only. This bond will not cover the amount of securities that will be in his possession at the beginning of the new year.

Under Section 4158, General Code, the council is vested with authority to require the officer authorized to receive and disburse cemetery funds to enter into a bond to account for all moneys and securities received by him. It would appear that no such bond has been required by the council. The amount of bond given by the director of service seems inadequate and not commensurate with the financial responsibilities attendant upon this office. Inasmuch as the director of service will have in his control interest bearing and negotiable securities in the amount of \$15,000.00, and receives collections for cemetery purposes in the amount of approximately \$800.00 annually, it would seem advisable for the safeguarding of the interests of the city, that the council avail themselves of the authority vested in them under Section 4158, General Code, and require the director of service to file a separate bond covering his responsibility as to the cemetery funds. Too much protection cannot be accorded the public funds, and the affording of this protection primarily devolves upon council.

## FEES OF THE MAYOR AND CHIEF OF POLICE IN ORDINANCE CASES

It was disclosed in the audit of the mayor's account that no costs were assessed in ordinance cases.

January 27, 1911, the council passed ordinance No. 1600, which is comprehended in Section 17 of the Codified Ordinances, providing as follows: "In all cases provided before the mayor for violation of any city ordinance all costs shall be taxed by the mayor as costs are taxed by justices of the peace in like cases."

Section 4356, General Code, provides: "The costs of the mayor and other officers, in all cases shall be fixed by ordinance, but in no case greater than the fees for similar services before justices of the peace. In case of conviction the fees of officers, jurors and witnesses shall be taxed against the parties convicted."

The court has held in *Hellefontaine vs. Haviland*, 15 O. D. (N. P.) 482: "The mayor is not entitled to recover his fees until an ordinance has been passed fixing the amount thereof."

On page 13 of Circular 305, issued by The Bureau of Inspection and Supervision of Public Offices, it is stated:

"The fees must definitely fixed, that is, each individual fee must be fixed, and cannot be greater than the fees for similar services before a justice of the peace. An ordinance providing that fees shall be the same as for similar services before a justice of the peace does not meet the requirements of the law."

As ordinance No. 1600 stipulates that the fees of the mayor and other officers shall be taxed by the mayor in ordinance cases as they are taxed by justices of the peace in like cases, it is not in conformity with law as per the above quoted holding of the Bureau.

As under the provisions of Section 4213, General Code, all such fees so taxed in the mayor's court are payable to the corporation treasury and hence furnish additional revenue for the payment of the expenses of the corporation, the council should immediately pass an ordinance definitely fixing the costs to be assessed in the mayor's court in ordinance cases.

Section 1746, General Code, stipulates the fees that may be charged by the justice of the peace in criminal cases, and Section 3347, General Code, fixes the fees that may be assessed for the constable in like cases. In enacting an ordinance providing for the fees to be assessed by the mayor in ordinance cases the individual fees should in no wise exceed the fees as set forth in the above named sections.

## PENAL ORDINANCES

Under date of November 27, 1916, the Attorney General held as follows: "I am of the opinion that council of non-chartered municipalities may legally pass ordinances, within the powers granted them by statute, covering the same acts as are covered by the penal statutes of the state, try such cases under such ordinances and cover the fines collected thereunder into the treasury of the municipality."

It will be noted from the above holding that power is vested in council to pass ordinances covering all classes of misdemeanors, thus enabling the mayor to try such offenses under the ordinances and recover to the city the fines and costs assessed and collected.

While, as embodied in Section 452 and 648, inclusive, of the codified ordinances, provision is made covering many classes of misdemeanors yet there are sundry offenses for which no provision is made by ordinance of council.

As the city is hampered on account of the lack of revenue it is but the part of wisdom that council should avail itself of every opportunity provided by law whereby the city's revenue may be increased. To this end it is advisable that council pass such ordinances as may be necessary to cover offenses that have not been provided for.

## CONFIRMATION BY COUNCIL OF APPOINTMENTS OF MAYOR

Section 4211 General Code, provides in part:

"It shall neither appoint nor confirm any officer or employee in the city government except those of its own body except as otherwise provided in this title."

The records of council disclosed that the appointments of the mayor for civil service commissioners and sinking fund trustees were confirmed by council.

The only appointments of the mayor that, through statutory provision, are required to be confirmed by the council are the members of the board of health and the members of special building commissions.

In addition to the foregoing the council is required to approve the appointment of cemetery employees.

The object of the law as affecting the administration of municipal affairs is the centralization of responsibility and, under the present law, this responsibility is conferred in the mayor.

That he may be unhampered in his administration of the affairs of the city, the law has permitted him to have absolute authority in the selection of his appointees, except in the instances above alluded to.

The records of the council should not be encumbered with matters over which they have no jurisdiction.

## POWERS OF COUNCIL LEGISLATIVE ONLY

Section 4211, General Code, provides: "The powers of council shall be legislative only and it shall perform no administrative duties whatever."

Council has no power to authorize or direct as to the payment of a claim against the municipality other than such as may arise through an unforeseen emergency and which is properly chargeable to the "contingent appropriation." The claims arising properly chargeable to the appropriations under sub-headings "council" and "clerk of council" need only the approval of the clerk of council who is the executive officer of council. The same applies as to the approval of claims for legal advertising. The clerk should verify the correctness of such claims and if found all right approve the same and transmit them direct to the auditor without reference to council.

## SOCIETY

Miss Kathryn Seelye, of Harvard Place, left for Roanoke, Va., this morning for an extended visit with her uncle, Walter L. Birch.

Miss Mildred Nott of Eleventh street left today for a three weeks' visit with her aunt, Mrs. W. H. Price, of Wallace Place, Covington, Ky.

For the Sunday morning services at the United Brethren church, Mrs. Olive Smith, Bowser will be the substitute organist for Mrs. Nellie Niswonger, who is spending her vacation in Dayton. Mrs. Philip Knost will sing a contralto solo. In the evening Miss Ida Frick will preside at the organ.

Mrs. Clyde Kessinger and son Gene, of Lincoln street, Mrs. Wiley Griffiths and son Val, of Summit street, and Mrs. Charles Dixon spent Wednesday at Wheelersburg as guests at the Pastime Club meeting, entertained by Mrs. C. W. Walters and Mrs. George Evans.

Mrs. Henry McGee and daughter, Jeanette, of Pittsburgh, are the guests of Miss Maudie Foley, of Fourth street.

Mrs. Jennie Toomey, of Harvard Place, received word this morning that her son, Corporal James L. Toomey, had arrived at Camp Merritt, N. J., after several months of overseas service. Corporal Toomey expects to arrive home within the next few days.

(Weissman Sentinel)  
Mrs. Clara Lewis, of Portsmouth, is the guest of Mr. and Mrs. I. H. Pittman. The ladies are cousins.

Mrs. Rockwell, of Portsmouth, has been visiting Mr. and Mrs. W. T. Villet. She returned home Wednesday.

Miss Marie Piley, of Ninth street, left this morning for a visit with relatives and friends in Chicago.

Dr. and Mrs. W. L. Jones arrived here last night from Athens and are the guests of their parents, Mr. and Mrs. W. L. Lison, of Washington street. Dr. Jones returned from Archangel, Russia, about three weeks ago and was discharged at Camp Grant, Ill., last week, after having served about two years with the 85th Division, made up at Camp Custer. During this time he spent ten months in Russia, going through England on the trip over and returning by way of West, France. He served as first lieutenant in the Dental Corps. Dr. and Mrs. Jones will go from here to their home in Beaver Dam, Wis., where the doctor will resume his practice.

Mr. and Mrs. R. B. Cunningham, of Holmes street, have as guest the latter's sister, Mrs. Frank Ambrose, of Columbus.

Mrs. K. T. Engram, of 1822 Summit street, entertained with a bathing party last evening for the pleasure of her guest, Miss Alpha Johnson, of Lexington, Ky. Those composing the party were Misses Florence, Daphne, Beatrice Smith, Ed Davis, Mr. and Mrs. Robert Townsend, Harold Hayes and Edward Zukas.

Miss Vivian Dawson, who has been in Washington, D. C., for the past year in government service, is spending a vacation with her mother, Mrs. Elizabeth Dawson, of Third street.

Mr. and Mrs. Fred Nello of Zanesville returned to their home this morning after being called here to attend the funeral of the late Henry Kugelman. They were accompanied as far as Chillicothe by Henry Klingman of Fourth street.

James Crowe of the West Side who has been ill for several days, threatened with typhoid fever is improving.

Mrs. Frank Torrence, of Eighth street, is the guest of Mr. and Mrs. Frank Torrence, of Bigna Vista.

Miss May Foster of Fourth street is visiting her aunt Mrs. H. Foster of Russellville, O.

Mrs. Audrey Enchebrecht, of Front street will leave in a few days for a three weeks' visit with her grandmother, Mrs. Lucy Trider of Garrison, Ky.

Mrs. Frank Torrence, of Eighth street, is the guest of Mr. and Mrs. Frank Torrence, of Bigna Vista.

Miss May Foster of Fourth street is visiting her aunt Mrs. H. Foster of Russellville, O.

Mrs. Audrey Enchebrecht, of Front street will leave in a few days for a three weeks' visit with her grandmother, Mrs. Lucy Trider of Garrison, Ky.

Mrs. Frank Torrence, of Eighth street, is the guest of Mr. and Mrs. Frank Torrence, of Bigna Vista.

Miss May Foster of Fourth street is visiting her aunt Mrs. H. Foster of Russellville, O.

Mrs. Audrey Enchebrecht, of Front street will leave in a few days for a three weeks' visit with her grandmother, Mrs. Lucy Trider of Garrison, Ky.

Mrs. Frank Torrence, of Eighth street, is the guest of Mr. and Mrs. Frank Torrence, of Bigna Vista.

## It Is The First Duty Of Every Young Man To Equip Himself To Earn An Honest Living.

"Money is not everything," 'tis true, but no one can be truly independent until some definite means of earning a living is acquired.

A business career is by far and away the best. The business man has "arrived." He leads in social life, in public life, in political life. Position and honor are thrust upon him. He commands the respect of all.

The young man of today is the business man of tomorrow. His chances for GREATER SUCCESS depend upon his training.

A business training is, in this day and age, absolutely essential for a successful business career. Know about business—business rule—business principles—business practices—before you go into business.

Sign the attached card and mail it to us today. Without any obligation on your part, we will be glad to tell you how a business education in this practical and successful school of business will insure your future success.

Winning the best game of his career, "Slim" Jim Wyckoff, star baseman for the N. & W. team of the Industrial League, handed the Irving Drew outfit a 5 to 1 liding on the Seventeenth street grounds last evening before a mighty throng of fans and fanatics. When Wyckoff took the mound he was full of confidence and never once lost that leery smile. He went the ball plastered with plenty of twist and shoot and led the Shoemakers to two hits, both being made by Johnny Grimm, who was playing ball when some of his team mates were wearing blue and white. While Wyckoff was a bear, his opponent, Mr. Lookabaugh, who was on the hill for the tail enders, did a mighty good job of hurling, allowing but five hits, two of which came in the last inning. Had he received the support accorded Wyckoff, not a run would have been scored against him. Misplays followed each other in rapid succession at the start of the game and the wonder is Lookabaugh did not lose heart. But he kept plugging along and brought in a mighty classy exhibition. When the Drews settled down they played as good ball as their opponents but the beams had been spilled and Wyckoff refused absolutely to crack, pitching carefully and craftily all along the way.

The Railroaders were saved being scored on in the opening inning due to a fine chuck on the part of Manager Timmes, a regular big league throw from middle. After Benfield had been retired Lewis walked and held first while Cottrell lofted to left. He took second when Wells fumbled Thompson's roller. At this interesting part of the game, Grimm singled to middle and Lewis was nailed at the plate. Although he might have touched pot had he tried.

The Railroaders grabbed off all the runs they really needed in the opening stanza. Applegate got his first hit of the season, when his pop fly was allowed to drop untouched in the pitcher's box. Goode sacrificed him to second. Then Lookabaugh's support crumbled like a broken egg. Wells hit to Drew at third and he had Applegate caught off second a city block, but threw wild to first. Timmes was safe on Reider's error. Applegate coming in and Wellsberg was given first when Lewis dropped his fly, Wells rolling in. Wells was finally pegged out at second when he tried to sneak down.

The N. & W. tribe got two more in the third. Wyckoff was safe on Reider's error. Applegate fanned. Goode drove a single to middle, but the ball took a false hop and went for a triple. He followed Wyckoff home when Lewis tossed over Drew's head trying to head him off. The Railroaders made their final score in the seventh. Weinberg singled. Vaughters fanned. Debo forced Weinberg and then stole and came home when Bowers singled to second.

The Drews escaped a shut out by scoring a single marker in the last half of the seventh. Grimm's hit got away from Vaughters and he beat the ball by a slight margin. Reider was called upon to lambast the poppet but he couldn't connect. Elsenangle walked. On Drew's rap to short, Grimm came scooting home having swiped third when Weinberg made an ineffectual toss to first trying to nip Elsenangle. Lookabaugh filed to right. The score:

**AB R H PO A E**

Applegate 3	3	0	1	0	0

### League Games Today

This afternoon the Thursday Afternoon League games will start at 1:30 sharp.

The first game will be between Andersons and Critterons. This will be the battle of the afternoon as the Critterons have been strengthened and a victory have sworn by the almighty diamond.

that they will beat Andersons on this trip to the diamond.

The second game will be staged between Horchows and the Portsmouth Dry Goods Company's nine. Both teams have been strengthened and a victory game is expected.

**To Enjoy Furlough**  
 Sergeant Claude Evans, of the 51st Infantry, now stationed at a camp in Georgia, will arrive here in a few days on a thirty day furlough to spend with some folks. Sergeant Evans enlisted for a term of three years and has eleven months yet to serve.

**New Switch**  
 Louis Amarch is having a switch put down on Tenth street near the new building he plans to erect there.

### PENNY ANTE

### RICKEY CAN EARN UNDYING FAME IN BUCKEYE FADOM IF HE TURNS M'HENRY OVER TO REDS

Local fans are greatly interested in the story emanating from St. Louis to the effect that the Reds have offered \$20,000 for Outfielder Austin McHenry of the Cardinals.

Mark received his training in Millbrook park as a member of the local minor league team. He developed into a working good hitter right off the reel and today is one of the best.

He has been the batting sensation of the National league and is "playing" wonderful ball for a tall and club. He has no weakness at the plate and local fans will recall the many long and timely wallops he has hit in various league games, which invariably turned the tide in the home team's favor. Mark is a clean living, conscientious athlete and is just the man the Reds need to cap the pennant. With him in left field Mettraw could buy a flock of sheep called stars and the Reds would still beat them out. Every ardent supporter of the Reds in this town's town sincerely trust that the Reds will get McHenry.

In face of what McGraw has been able to do in the heat of battle Manager Branch Rickey, Austin, turn on the snorter trick than let McHenry just breeze into Cincinnati. It is up to Rickey to bolster a Western pennant chasing team and he will no doubt see his duty and perform it like he does any duty he faces. The Cardinals are out of the running. The Reds are in it up to their eyes. The Rickey-McHenry combination can set Cincinnati baseball mad. By all means Mr. Rickey if the Reds should offer you \$20,000 for McHenry grab it. The Reds need McHenry and a pennant in Cincinnati will help baseball 100 per cent more than if the Giants would win it after grabbing this and that player through McGraw's famous check book.

### Walker Released

LOUISVILLE, KY., August 7.—"Dixie Walker," of the Columbus American Association Club, has been released to the New Orleans Southern Association Club. It was announced here shortly before the Columbus team departed for Milwaukee last night.

**Here On Business**  
 Frank E. Hart, of Gage, Oklahoma, is in the city on business.

# 200 Huntington Fans Coming For The Millbrook Game Sunday

Word from Huntington was received Thursday morning to the effect that the "Hoosters" of the metropolis who are to meet the All Stars at Millbrook Sunday afternoon in the fourth game of the later-city series would be accompanied by a crowd of not less than 200 powers, also will play the distance in high powered machines. They are coming down fortified with all sorts of noise making devices and hope to disconcert the All Stars by their terrible roosting. Incidentally it is widespread about that among the 200 will be some of the high brows of the West Virginia metropolis who will be eager to match wits with the local roosters. They believe because they live within the shadow of a college that they have so intellectually fertilized that they will say things that will defy comebacks on the part of Portsmouth folks. With the welcome sign will be hanging on the outside of the stadium at Millbrook and the smarter they are the better will be their reception. Portsmouth fans are just that kind and every business man when they are stirred up by those who inspire they live on a higher plane of intellectuality. Mother Wit has never failed them and they have made a huge fool over more than one assemblage of visiting fans.

On the other hand Carl Hilegier, chief pen-pusher of sporting events in Huntington, writes that the Hoosters are well fortified in the field and he is positive his team will carry back the game.

The fans of Portsmouth will recall that the two teams have met three times and that the series now stands 2 to 1 in favor of the West Virginians. "Two" Huntington is being groomed to pitch for the All Stars and he would eleven innings at Huntington recently before he was downed by the Hoosters 2 to 1.

The game Sunday will start promptly at 2:30 o'clock and Portsmouth fans are sure to be out in great force, for they will not surely allow the Huntington delegation to come up here and get away with any high-class intellectual staff that they can easily combat.

### HOW THEY STAND

### A Winner Showing Bad Judgment

PITTSBURGH, PA., August 7.—First-time Mayor, Pittsburgh National league pitcher, has been released to the Chicago Americans on a wolverine claim.

Mayor was for several years with the Phils. He is a nephew of Alie Meyer of this city.

### Has Neuralgia

"Charlie Joe" Stokley, turnkey at the police station, was off duty today, being confined to his home with an acute attack of neuralgia.

### ST. LOUIS, Aug. 7.—It is tipped off here, on what seems to be good authority, that the Cincinnati club has offered a sum to be \$50,000 for Austin McHenry, the year's hottest hurler of the Cardinal club. President Riskey has not announced his decision, but there seems little doubt that the offer has been made. McHenry is batting around .330 and fielding .972.

If the Reds should get McHenry, they would be buying back, for huge money, a player that they discarded less than two years ago. McHenry went South with the club in the spring of 1918, but was turned back to the minors, as there seemed no room for him with the outfielders then under contract. In mid-summer of 1918 he joined the Cardinals, and did good work, but it was not till this season that he blossomed out as a wonder. He is now ranked as by far the best batsman, also the finest pitcher, of the St. Louis club. McHenry, added to the Reds, would crush the pennant—would make the club practically irresistible. He hits highlanded, and seems to have no batting weakness. It was rumored around town Wednesday that the Reds were not only after McHenry, but had made a high offer for "Irish" Moust of the Phils.

**PUT it flush up to Prince Albert to produce more smoke**  
 happiness than you ever before collected! P. A.'s built to fit your smokeappetite like kids fit your hands! It has the jindamiest flavor and coolness and fragrance you ever ran against!

Just what a whale of joy Prince Albert really is you want to find out the double-quickest thing you do next. And, put it down how you could smoke P. A. for hours without tongue bite or parching. Our exclusive patented process cuts out bite and parch.

Realize what it would mean to get set with a joyous jimmy pipe or the papers every once and a while. And, puff to beat the cards! Without a comeback! Why, P. A. is so good you feel like you'd just have to eat that fragrant smokel

## AFTER THE BATTLE IS OVER

COUNT Von Bernstorff, who previous to the clash between America and Germany, was a figure rather familiar in this country, has taken to magazine writing, and in his first contribution, lays it down that Germany lost because she learned the importance and the spirit of the American people.

In the beginning the military and jingo classes were in control of practically the entire German press. They induced or forced the attitude towards the war. In their arrogance they would listen to no reason and warning never staid their extreme course. So Germany "lost" a moral victory through the violation of Belgian neutrality, a political victory through unrestricted submarine warfare, and a military victory through her offensive tactics.

An open confession is said to be good for the soul. All these things von Bernstorff now admits, and they are, probably, the convictions of the German people, somewhat sobered by defeat, were alleged before the great crisis, but they were scoffed by the German leaders and all Germans gave lusty acclaim to the leaders, followed them, supported them, even though it were blindly. Now there is a different understanding, a woefully different realization from which it was believed the policy of dishonor, stupidity and ignorance would lead to. Some selected monitors, whose self-interest is great, would have America pretend a modesty that would not be truthful and profess her part in the war was insignificant and the same end would have come anyway, should read after von Bernstorff and ponder upon what he has to say, learn that but for America the world-war would be going on yet, or if ended a different result was not only possible, yes, not so much as out of the probable class. And learning they should acquire pride enough in their country to stand for that credit and position, which it so gallantly won.

## MUCH NEEDED IMPROVEMENTS

COUNCIL, at its meeting Wednesday evening, took the necessary steps to provide for the re-surfacing and paving of a number of streets.

Among those to be resurfaced are parts of Second and Gallia. The condition of these thoroughfares is undeniably atrocious. The nature of the improvement to be made upon them has not yet been decided upon. Whatever it be it can't make these streets any worse, for at least a while. In so far as Gallia is concerned it nearly always was bad, first with its bottomless mud and now and even boom after paving, rough as wind-chopped waters and hard as adamant.

The improvement of Norfolk and Plum streets are especially demanded by conditions, with the east of Gallia utterly impassable, and in a bad way to continue so indefinitely, though there is some talk that this street will be paved before long. May be this talk has a substantial basis, but with years of Gallia as it is expectancy is not likely to spring up strong until work is finally begun.

Even the wisest talk about things of which they know little, or nothing. Here is the London Spectator telling us that the people of Illinois were deeply shocked over the Chicago race riots, "because they have had no experience therein so common to the rougher portions of the country." What about the riots and orgy of blood in East St. Louis a year or so ago, and isn't it in Illinois? The Negroes got treated rougher there than they have ever been elsewhere.

Under the direction of County Engineer Harper Contractor Buel has put considerable gravel on the temporary road around the Galena pike improvement, and thereby bettered its condition until it is easily passable. The change is heartily approved by all who have to travel that way.

The chairman of the Democratic national executive committee makes pronouncement that Wilson will not be a candidate for a third term. What's the call? Everybody knows he will not be and to talk to the contrary is by some fool fellows, who think they are thereby playing smooth politics.

The fame of the Peerless simply can not be kept down. See McHenry, who was introduced to the base ball world by the local team, standing at the head of the list of the best batters in the National League.

The politician will have his little joke. The Republican national committee issues a pamphlet in which it is charged the Democratic party is supporting the league of nations because the financiers are in favor of it.

Couldn't Poland turn it back on us neatly? We sent a commission over there to investigate alleged outrages against the Jews and she might retaliate by sending one over here to inquire into real outrages against the Chicago Negroes.

Thanks, we can die a bit cheaper anyway. The treasury department has decided that the flag-free handles on a coffin is not ornamental jewelry and is therefore subject to no luxury tax.

Hasn't Illinois got any legislature? We notice her receipts this year were over three million dollars bigger than expenses.

Some people will change their minds about Germany not being human when they learn she yearns for American movie stars.

## THE WISHING PLANE

BY WILLIS WINTER

Now for the story of Captain Sam. He and his little boy, as Jack heard it that night aboard the fishing boat.

Captain Sammons and his crew aboard the Albatross had been fishing from Mainland for years. Day after day his boat brought in the blazest catch. It ventured out to sea when other boats, built less sturdy, stayed at anchor because of storms.

But it wasn't because Captain Sammons forced his men to do what he wanted that the boat was able to bring in such big catches and went out in all kinds of weather. Folks around the little fishing hamlet told how the captain's kindness had won the hearts of his men.

There was one time when the little girl of one of his sailors became sick suddenly. The doctors nearby said that the only man who might save her life was a noted specialist in Edinburgh. The fishing boats had been forced to remain at the docks all that day because of the storm, raging around them. Even Captain Sammons had decided not to attempt his daily trip. But when word got to him that "Bobby's" little girl needed help from the big city, he walked quietly down to his boat and prepared to go for the specialist. He told his crew what he

was going to do, but told them that they did not need to go with him unless they cared to. Every single one of them, excepting Bobby, went, though. Early the next morning they arrived with the doctor after every one had given them up for lost. The little girl got well.

Captain Sammons had done similar kind acts for the others of his crew. "Then came the time Captain McGregor told Jack about.

Captain Sammons and his men stayed too long at the fishing grounds when a storm came up. It turned out to be one of the worst the fishermen remembered. Luckily the other boats reached the docks before the fiercest part of the storm came up. But Captain Sammons didn't.

The captain had taken his little boy with him that day—the youngster had pleaded so hard for a ride. So when the storm came up the captain and his crew were worried more about the boy than they were about themselves. It wasn't long before the wind had torn away the sail and the waves had broken the rudder. A few minutes later the heavy seas had turned the boat over and all were thrown into the water. Bobby, the little girl's father, you remember, caught the captain's son in his arms as he jumped into the water and swam with him to the life raft. The captain was hurt by a loose timber as the boat tipped over, but two members of the crew helped him to the raft and lifted him onto it. They helped the boy up beside him and hung to the edge of the raft for hours. When it seemed that no help would come soon the men whispered to each other a few minutes and then, using belts and suspenders for ropes, used the captain and boy tightly to the raft so that the waves could not wash them off. Hours went by. One by one the sailors became exhausted and their heads began to sink to their deaths. Bobby was the last to go. A day later "Bobby's" little girl needed help from the big city, he walked quietly down to his boat and prepared to go for the specialist. He told his crew what he

## New - York - Day - By - Day

BY

O. O. MCINTYRE

NEW YORK, Aug. 7.—The twenty-story church skyscraper that is to be built on Madison Avenue between 43rd and 44th street by the Fifth Christian Science church of New York will be perhaps the most unique building in this city of odd edifices. It will cost \$7,500,000 and will be the highest structure north of the Metropolitan Tower.

To the casual observer the new church skyscraper will look like an ordinary office building. The distinguishing mark will be the entrance to the auditorium which will seat 1,500. There are 14 Christian Science churches in Greater New York and a reporter for an evening newspaper finds

that men and women are turned away at every Sunday and Wednesday service at each church. The little has a tremendous following of Christian Scientists the majority being among the stage stars. I have heard that Broadway is before long to have its Christian Science church, which will be attended no doubt mostly by footlight favorites.

The first Christian Science church, which is on Central Park West at 90th street, is the only house of worship in Manhattan that has elevators. They are used to carry churchgoers to the balcony which runs entirely around the elegant structure. Each one of the churches maintains

## WHO'S WHO

IN THE DAYS NEWS

KING ALBERT OF BELGIUM  
Albert, King of the Belgians, who, it is announced, will visit the United States with his wife and family this fall, was born on April 8, 1875, and is therefore forty-four years old. He is the son of the late Prince Philip of Saxe-Coburg and Gotha, and the late Princess Marie of Hohenzollern-Sigmaringen.

He succeeded his uncle, the late Leopold II, as King, being crowned on April 17, 1909. He was then thirty-four years old.

Queen Elizabeth, wife of King Albert, was a Bavarian princess. They were married on October 2, 1900. Three children were born to them—Prince Leopold, who is eighteen years old; Prince Charles, sixteen, and Princess Marie-Jose, thirteen years old.

The king visited the United States when young and worked as a journalist for a newspaper in San Francisco. During the war with Germany he and Queen Elizabeth distinguished themselves by their bravery. After the Germans took Brussels the king was invited to take up his residence at Harve, but repudiated that his place was with his men, and lived, instead, at La Panne, on the last strip of Belgium soil, left free of the German invaders.

The queen won praise for her work for the Red Cross, and President Poincaré of France presented her with the war cross as an expression of the admiration of the French people for her "magnificent courage and untiring devotion to the wounded." In ministering to those who had fallen in battle, Queen Elizabeth frequently was under fire, it is said.

Pope Benedict announced that he would present her with the Golden Rose in token of his own admiration of her humanitarian efforts in the hospitals.

The king and queen made frequent trips by airplane to London and Paris, the queen proving herself as courageous in the air as when helping the wounded under fire.

King Albert and Queen Elizabeth visited Switzerland frequently before the war, traveling incognito under the name of Count and Countess Montford. The queen is an excellent musician and an expert photographer. Recently when President and Mrs. Wilson were visiting Belgium she delighted in taking their photographs.

A reading room in more or less congested sections of the city for the followers of Mrs. Eddy and all of the churches unite in maintaining a reading room occupying almost an entire wing of Aeolian Hall on West Forty Second street.

The income from the new church skyscraper will go into the church's fund. A careful censorship will be made on all applications for office rental in the building. It is expected to be finished by October 1, 1920.

A Broadway surface car stopped with a jerk. The passengers saw the motorman hurry out the front door and apparently vanish from the scene. There was a breathless wait. After a few minutes the motorman came back and the conductor, looking worried, rushed up front to inquire the trouble.

"Did you run someone down?" he asked anxiously. "No," he said sheepishly. "A little bit of a kid lost some money near the track and she was scared to go home without it. So I gave her a dime. Poor little shaver!" And the car jolted on down the main stem of

## "THOSE WERE THE DAYS!"

RUNNING THE GRUNTLET OF THE VILLAGE GOSSIPS—THE FIRST TIME HE TOOK HIS BEST GIRL BUGGY RIDING

the Coldest Hearted City in the World.

It has been stated from an authoritative source that there are 300,000 drug fiends in New York. At the registration of all addicts, required by law, a few weeks ago only about 2000 registered. They were given cards which identified them and must be presented to secure drugs. The thousands held in bondage by drugs have found all the usual doors closed and now when they awake in the twitching nervousness that comes when the artificial brightness fades—they must go to the underworld peddlers to get the dope. It is said that there are scores of drug peddlers around Columbus Circle at night.

A dapper chap in an awning stripe silk shirt, a flat cap and a one button coat was riding down Fifth Avenue on a bus with his lady friend the other evening. He was so engrossed in his sporting page that he did not notice her for a number of blocks. Then he parked his gun and looking up, said: "Say, fidget what is a protestant, if that's the way you pronounce it?"

Louis Mann wears the highest and the biggest collars on Broadway. They are of the winged variety and give an aeroplane effect to the ears. E. H. Southern is said to wear the lowest collars. That will conclude the cellar lecture for the day.

## The Foreteller

The gull shall whistle in his wake, the blind wave break to fire, he shall fulfil God's utmost will, unknowing his desire. And he shall see old planets pass and alien stars arise. And give the gale his reckless sail in shadow of new skies. Strong lust of gear shall drive him out and hunger arm his hand, To wring his food from a desert nude, his foothold from the sand. His neighbors' smoke shall vex his eyes, their voices break his rest; He shall go forth till south is north, sullen and dispossessed. He shall desire loneliness, and his desire shall bring; Hard on his heels a thousand wheels, a people and a King. He shall come back on his own track, and by his scarce cool camp There shall be meet the roaring street, the derelict and the stamp, For he must blaze a nation's ways with hatred and with brand. Till on his last won wilderness an empire's bulwarks stand.

Rudyard Kipling.

## PRESIDENT WILSON ISSUES STATEMENT ON SHANTUNG

WASHINGTON, D. C., August 7.—President Wilson issued a formal statement last night saying that the "dark statement" made by Viscount Uchida as to Japan's policy regarding Shantung, "ought to serve to remove any of the misunderstandings which had begun to accumulate about this question."

References in the Uchida statement to the agreement between Japan and China in 1915, "might be misleading," the president said, "if it is not understood that the agreement was made in 1915 and 1918 only in case China failed to cooperate fully in carrying out the policy outlined in the statement of Baron Makino and Viscount Uchida."

"I have, of course, no doubt that Viscount Uchida had been apprised of all the particulars of the discussion in Paris, and I am not making any statement on the part of the government of the United States in the policy of this statement, with the idea of correcting his, but only to throw a fuller light of clarification upon a situation which was made in the discussion of the enforcement of the agreement of Shantung in 1915 and 1918 only in case China failed to cooperate fully in carrying out the policy outlined in the statement of Baron Makino and Viscount Uchida."

"The owners of the railway will use special police only to insure security for traffic. They will be used for no other purpose."

"The police forces will be composed of Chinese and such Japanese instructors as the directors of the railway may select and will be appointed by the Chinese government."

No reference was made to this

## HIGH PRICE WAR WORLD-WIDE; NATIONS FACE GRAVE PROBLEM

(BY THE ASSOCIATED PRESS)

Demands for increased wages, peeling strikes, and investigations of the unprecedented cost of living, are raising world-wide agitation. In practically every country, the demands of the workmen are becoming so insistent, that in this and European countries, in particular, the situation is causing grave concern.

Strikes and threatened strikes, involving a great number of trades and professions, are under way in industries of all description.

In New York City, according to a police announcement, 110 separate strikes are in force at the present time. There the most serious one is the strike of motormen and conductors of surface, elevated and subway lines of the Brooklyn Rapid Transit Company.

Strikes of railroad shopmen have been declared in a great number of railroad centers in this country. The strikes have forced railroad officials of a number of roads to declare an embargo on freight except foods and perishable goods.

Since Governor Cox's announcement recently that Ohio would wage war on food profiteers, a great number of states have started similar campaigns.

In England, the police, bakers, tramway workers and coal miners are on strike, causing much inconvenience and suffering. There the situation apparently has become a political issue and every day is the subject of bitter debate in both houses of parliament.

In France municipal markets have been established under supervision of government authorities. The cost of living there has caused a great number of strikes recently.

A dispatch from Rome announces the strike of 150,000 workmen in the iron industry.

In South America the labor unrest has been seething for months. In China workmen on one of the important railroads are on strike.

### HUNGARIAN GOVERNMENT OVERTHROWN; ARCHDUKE JOSEPH IS NEW LEADER

BUDAPEST, Aug. 7.—The peace conference was advised today that the Hungarian cabinet headed by Jules Peidl, has been overthrown and that Archduke Joseph had established a ministry in Budapest.

Advises to the conference stated that Rumanian forces had crossed the Danube into the Budapest section of Budapest, and were seizing supplies, preparing to strip them to Rumania.

The social Democrats of Hungary still hope that the allied and associated governments will not tolerate either Rumanian control of the country or that of a government by the reactionary great dukes, additional dispatches reaching the conference from Budapest state:

Accounts of the Rumanian press report that they notified the Hungarians yesterday that because the terms of the armistice laid down in the Rumanian ultimatum had not been accepted the Rumanians would cross the Danube immediately, later entering the city.

Other news charged against the Hungarians in the advice to the conference are assault upon ineffective police and forced entrances into houses everywhere in Budapest under the pretext of searching for arms.

The Rumanian army is reported living on the country, seizing the food it wants, while livestock, farming implements, rolling stock and food are being sent to Rumania, although Budapest is on the verge of starvation.

The Rumanians, the advice adds, have instituted a blockade, one feature of which has been the destruction of portions of the railways between Budapest and Vienna.

BUDAPEST, Wednesday, Aug. 6.—The entire mission, in this city, designated governmental authority to Archduke Joseph tonight when the Peidl government resigned.

Archduke Joseph was a commander of Austro-Hungarian forces on the southern section of the eastern battle front during the first two years of the great war. In 1918 he headed a movement looking to the securing of independence for Hungary from Austria and when the collapse of the dual monarchy came in November 1918, he was asked by Emperor Charles, of Austria, to take charge of the situation and find a solution for the political crisis before the country.

With his son, Archduke Joseph Francis, he took the oath to submit unconditionally to the orders of the Hungarian national council and later took the oath of fealty to the government.

### ACCEPTING FREIGHT SUBJECT TO DELAY

CHICAGO, Aug. 7.—Practically all railroads of the midwest, had in effect today, orders to accept freight "subject to delay," on account of the strike of federated railway shopmen.

The strike of the shopmen, continued to spread, and M. L. Hawver, president of the council, directing the strike in the midwest, said that "traffice will be discontinued in three days."

R. H. Ashton, regional director of railroads for the northwest, issued the following statement regarding the conditions regarding freight:

"Beginning immediately and continuing until further notice, all freight of every description, in railroad lots, will be accepted only as subject to delay on account of the strike. All bills of lading must be subject to delay on account of strike."

Representatives of the shopmen employed on the Michigan Central Railroad between Chicago and Buffalo, at a meeting in Jackson, Michigan, adopted resolutions supporting the officers of the international union and urging strikers to return to work pending a nationwide strike vote.

### BEAUTIFUL AMERICAN GIRL WILL MARRY ENGLISH PEER

Miss Camille Sutton Palmer.

### SAYS LABOR MIGHT ADVOCATE FIRING SQUAD FOR PROFIETEERS

WASHINGTON, D. C., August 7.—When all prices would be fixed by the government, some sharp views of leaders of organized labor on economic problems were developed at the opening of hearings today before the house interstate commerce committee on labor's plan for the reorganization of the railroads.

Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers, said labor might advocate a firing squad for profiteers and declared that unless congress found a solution of the high cost of living problem within a few months, America last night, one fugitive was killed, one slightly wounded and two still are at large. The men were tracked by blood hounds to a spot near Indian where a running fight took place.

He added that the time would come to keep up prices.

### Wilson Ordered Suits Against Big Packers

WASHINGTON, D. C., August 7.—The government's new anti-trust suits against the five great meat packing concerns is being brought by direction of President Wilson as one of the first results of his study of the cost of living problem.

It became known today that the president came to his decision after a careful study of the investigation of the federal trade commission, and the hearings before congressional committees, considering bills to control the packing industry.

No final decision has been reached as to whether the suits will be brought in the civil or criminal courts or in both. It seems likely the prosecution will proceed from both angles.

One feature of the government's line of action has been indicated as certain. It seems assured the government will charge the packers with being an illegal trust on the ground that they control the buying of cattle. Whether there will be the double charge that they control both buying of cattle and selling of finished meat products has not been so clearly defined, but the government has evidence in hand, which the department of justice contends will prove that the packers control the prices paid to producers.

Twelve principal livestock markets, the government's evidence is said to indicate, are controlled by the packers' division of purchase arrangement. While fluctuations are shown in the individual markets, indicating competition in buying, the government's experts have reported that a considerable

### RIOTING IN BROOKLYN CAR STRIKE

NEW YORK, Aug. 7.—Hitting and the firing of shots at a wrecking crew early today marked the beginning of the second day of the Brooklyn Rapid Transit strike. No one was injured.

At 8 a. m. the company reported 187 surface cars, or approximately 15 percent of the maximum to be in operation. From 1 to 2 policemen were stationed on each car.

On the subway and "L" lines the company stated the service was 15 to 17 percent of normal.

Strike leaders claimed that 85 percent of the entire system was tied up and that since last night more than 2,000 men had joined the union.

The first shots were fired at 2:30 a. m. by an unidentified man at Schenectady avenue and Bergen street, who then fled. All of the shots went wild, except one, which broke a car window.

At 6:20 a. m. strikers and sympathizers attacked the crew of a Bergen street car at Vanderbilt avenue and another at Bergen street and Rogers avenue. Car windows were smashed, but the rioters were dispersed by the police. No arrests were made.

Among those to be resurfaced are parts of Second and Gallia. The condition of these thoroughfares is undeniably atrocious. The nature of the improvement to be made upon them has not yet been defined to us. Whatever it be it can't make these streets any worse, for at least a while. In so far as Gallia is concerned it nearly always was bad, first with its bottomless mud and now and even soon after paving, rough as wind-swept waters and hard as adamant.

The improvement of Norfolk and Plum streets are especially demanded by conditions, with the east of Gallia utterly impassable and in a bad way to continue so indefinitely, though there is some talk that this street will be paved before long. May be this talk has a substantial basis, but with years of Gallia as it is expediency is not likely to spring up strong until work is finally begun.

Even the wisest talk about things of which they know little, or nothing. Here is the London Spectator telling us that the people of Illinois were deeply shocked over the Chicago race riots, "because they have had no experience therein so common to the southern portions of the country." What about the riots and orgy of blood in East St. Louis a year or so ago, and isn't it in Illinois? The Negroes got treated rougher there than they have ever been elsewhere.

Under the direction of County Engineer Harper Contractor Reed has put considerable gravel on the temporary road around the Galena pike improvement and thereby bettered its condition until it is easily passable. The change is heartily approved by all who have to travel that way.

The chairman of the Democratic national executive committee makes pronouncement that Wilson will not be a candidate for a third term. What's the call? Everybody knows he will not be and to talk to the contrary is by some fool fellows, who think they are thereby playing smooth politics.

The fame of the Peerless simply can not be kept down. See McHenry, who was introduced to the base ball world by the local team, standing at the head of the list of the best batters in the National league.

The politician will have his little joke. The Republican national committee issues a pamphlet in which it is charged the Democratic party is supporting the league of nations because the financiers are in favor of it.

Couldn't Poland turn it back on us neatly? We sent a commission over there to investigate alleged outrages against the Jews and she might retaliate by sending one over here to inquire into real outrages against the Chicago Negroes.

Thanks, we can die a bit cheaper anyway. The treasury department has decided that the flagpole handles on a coffin is not ornamental jewelry and is therefore subject to no luxury tax.

Haven't Illinois got any legislature? We notice her receipts this year were over three million dollars bigger than expenses.

Some people will change their minds about Germany not being human when they learn she yearns for American movie stars.

## THE WISHING PLANE

BY WILLIS WESTER

Now for the story of Captain Sammons and his little boy, as Jack heard it that night aboard the fishing boat.

Captain Sammons and his crew aboard the Albatross had been fishing from Mainland for years. Day after day his boat brought in the biggest catch. It ventured out to sea when other boats, built less sturdy, stayed at anchor because of storms.

But it wasn't because Captain Sammons forced his men to do what he wanted that the boat was able to bring in such big catches and went out in all kinds of weather. Folk around the little fishing harbor told how the captain's kindness had won the hearts of his men.

There was one time when the little girl of one of his sailors became sick suddenly. The doctors nearby said that the only man who might save her life was a specialist in Edinburgh. The fishing boats had been forced to remain at the docks all that day because of the storm racing around them. Even Captain Sammons had decided not to attempt his daily trip. But when word came to him that "Bobby's little girl" needed help from the big city, he walked quickly down to his boat and prepared to go to the specialist. He told his crew what to

do, but told them that they did not need to go with him unless they cared to. Every single one of them, excepting Bobby, went, though. Early the next morning they arrived with the doctor after every one had given them up for lost. The little girl got well.

Captain Sammons had done similar kind acts for the others of his crew. Then came the time Captain McGregor told Jack about.

Captain Sammons and his men stayed too long at the fishing grounds when a storm came up. It turned out to be one of the worst the fishermen remembered. Luckily the other boats reached the docks before the fiercest part of the storm came up. The captain's kindness didn't.

The captain had taken his little boy with him that day—the youngster had pleaded so hard for a ride. So when the storm came up the captain and his crew were worried more about the boy than they were about themselves. It wasn't long before the wind had torn away the sail and the waves had broken the rudder. A few minutes later the heavy seas had turned the boat over and all were thrown into the water. Bobby, the little girl's father, you remember, caught the captain's son in his arms as he jumped into the water and swam with him to the life raft.

The captain was hurt by a loose timber as the boat tipped over, but two members of the crew helped him to the raft and lifted him onto it. They helped the boy up beside him and hung to the edge of the raft for hours. When it seemed that no help would come soon the men whispered to each other a few minutes and then, using belts and suspenders for ropes, tied the captain and boy tightly to the raft so that the waves could not wash them off. Hours went by. One by one the sailors became exhausted and let go of the raft—to sink to their deaths. But when word came to him that "Bobby's little girl" needed help from the big city, he walked quickly down to his boat and prepared to go to the specialist. He told his crew what to

## New - York - Day - By - Day

BY

O. O. MCINTYRE

NEW YORK, Aug. 7.—The twenty-story church skyscraper that is to be built on Madison Avenue between 43rd and 44th street by the Fifth Christian Science church of New York will be perhaps the most unique building in this city of odd edifices. It will cost \$7,500,000 and will be the highest structure north of the Metropolitan Tower.

To the casual observer the new church skyscraper will look like an ordinary office building. The distinguishing mark will be the entrance to the auditorium which will seat 1,800. There are 11 Christian Science churches in Greater New York and a report is for an evening newspaper finds

that men and women are turned away at every Sunday and Wednesday service at each church.

The Bible has a tremendous following of Christian Scientists the majority being among the stage stars. They have heard that Broadway is before long to have its Christian Science church, which will be attended no doubt mostly by footlight favorites.

The first Christian Science church, which is on Central Park West at 68th street, is the only house of worship in Manhattan that has elevators. They are used to carry churchgoers to the balconies which run entirely around the elegant structure. Each one of the churches maintains

## WHO'S WHO IN THE DAYS NEWS

KING ALBERT OF BELGIUM  
Albert, King of the Belgians, who, it is announced, will visit the United States with his wife and family this fall, was born on April 8, 1875, and is therefore forty-four years old. He is the son of the late Prince Phillip of Saxe-Coburg and Gotha, and the late Princess Marie of Hohenzollern-Sigmaringen.

He succeeded his uncle, the late Leopold II, as king, being crowned on April 17, 1909. He was then thirty-four years old.

Queen Elizabeth, wife of King Albert, was a Bavarian princess. They were married on October 2, 1906. Three children were born to them—Prince Leopold, who is eighteen years old; Prince Charles, sixteen; and Princess Marie-Jose, thirteen years old.

The king visited the United States when young and worked as a journalist for a newspaper in San Francisco. During the war with Germany he and Queen Elizabeth distinguished themselves by their bravery. After the Germans took Brussels the king was invited to take up his residence at La Fenne, on the last strip of Belgian soil, left free of the German invaders.

The queen won praise for her work for the Red Cross, and President Poincaré of France presented her with the war cross as an expression of the admiration of the French people for her "magnificent courage and untiring devotion to the wounded." In ministering to those who had fallen in battle, Queen Elizabeth frequently was under fire, it is said.

Pope Benedict announced that he would present her with the Golden Rose in token of his own admiration of her humanitarian efforts in the hospital.

The king and queen made frequent trips by airplane to London and Paris, the queen proving herself as courageous in the air as when helping the wounded under fire.

King Albert and Queen Elizabeth visited Switzerland frequently before the war, traveling incognito under the name of Count and Countess Montfort. The queen is an excellent musician and an expert photographer. Recently when President and Mrs. Wilson were visiting Belgium she delighted in taking their photographs.

A reading room in more or less congested sections of the city for the followers of Mrs. Abby and all of the churches unite in maintaining a reading room occupying almost an entire block of Astor Hall on West Forty Street.

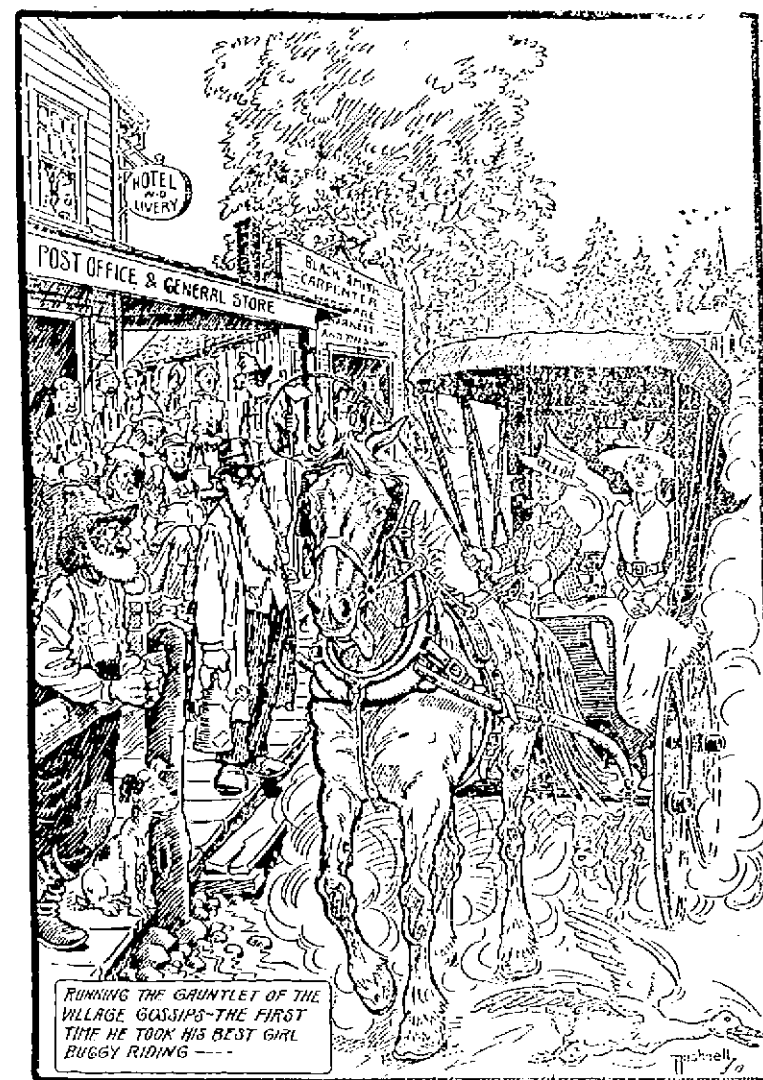

The income from the new church skyscraper will go into the church's fund. A careful censorship will be made on all applications for office rental in the building. It is expected to be finished by October 1, 1920.

A Broadway surface car stopped with a jerk. The passengers saw the motorist hurry out the front door and apparently rush from the scene. They were a breathless wait. After a few minutes the motorist came back and the conductor, looking worried, pushed up front to inquire the trouble.

"Did you run someone down?" he asked anxiously.

"No," he said sheepishly. "A little bit of a kid lost some money near the track and she was scared to come without it. So I gave her a dime. Poor little shaver!" And the car jolted on down the main stem of

DOC KOKO'S KOLUM

The Forebode  
The and shall while in his wife, the third wave break in fire. He shall fulfill God's utmost will, not knowing his desire. And he shall see old planets pass and alien stars arise. And give the globe his reckless sail in shadow of new skies. Strong lust of gear shall drive him out and hunger drive him back. To wring his food from a desert made, his foot hold from the sand. His neighbors' smoke shall vex his eyes, their voices break his rest.

He shall go forth till south is north, suffer and be disappointed. He shall desire loneliness, and his desire shall bring. Hard on his heels a thousand wheels, a people and a King. He shall come back on his own track, and by his scarred feet camp and by his need the morning street, the derick and the stamp. For he must blaze a nation's way with basket and with brand. Till on his last web wilderness an eagle's talons stand.

—Italgard Kipling

## Abel Martin

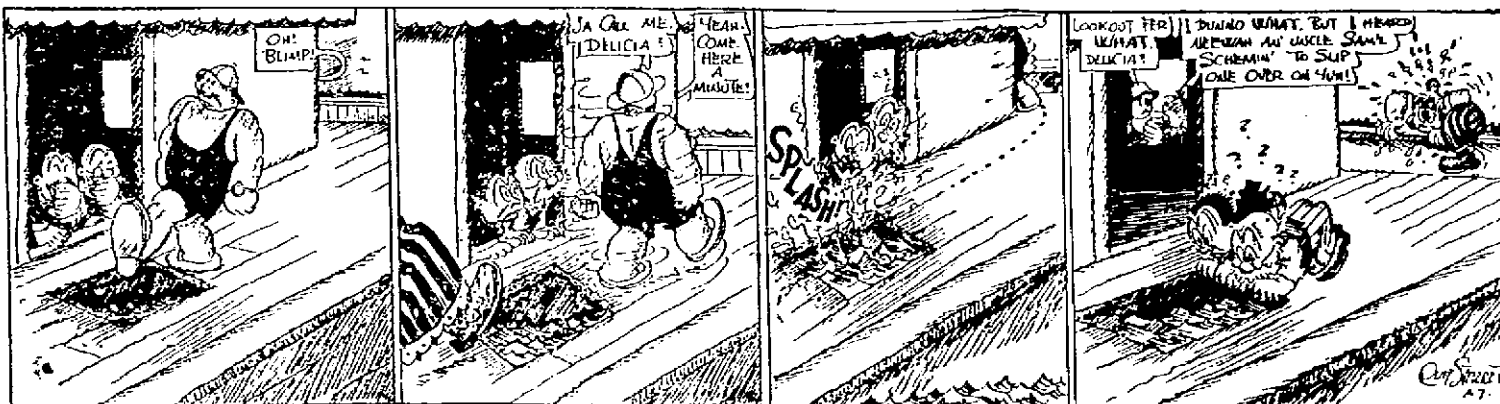

Who remembers when the only noise that murred the long, sleep, summer afternoons was the occasional rattle of rattled cuffs or a heavy thunder around "Milkman" early over town, as they say so many women early in the morning? "Waz a darlin' statement of Life Book, Day.
